

The Leica Geosystems Internship

The Leica Geosystems Internship is presented by the American Society for Photogrammetry and Remote Sensing (ASPRS), with funding provided by Leica Geosystems GIS and Mapping, LLC.

The internship provides the award winner with an opportunity to carry out a small research project in photogrammetry and remote sensing of his or her own choice, or to work on an existing Leica Geosystems project as part of a team. The internship is for eight weeks, during which time the selected intern will work with Leica Geosystems personnel at facilities in San Diego, Denver, Heerbrugg, or elsewhere.

This is an eight-week internship. The internship consists of a stipend of \$2,500 plus an allowance for travel and living expenses for the period of the internship.

The internship is open to graduate students of photogrammetry and remote sensing. Applicants must be ASPRS members.

Deadline: **December 1, 2005**
